

## Editorial: An Introduction

We are pleased to present the inaugural issue of a new academic journal, *Eurasian Journal of Business and Economics (EJBE)*. EJBE is a refereed academic journal, publishing research articles in the field of business administration, economics, and related fields.

The main objective of EJBE is to provide an intellectual platform for Eurasian scholars, a platform in which research in alternative paradigms for business and economic inquiry could be presented and debated. EJBE also aims to promote interdisciplinary studies over the issues of theoretical, practical, and historical importance in dealing with problems in business and economics and become the leading business and economics journal in Eurasia.

EJBE welcomes not only Eurasian authors, but also authors from all over the world. EJBE will promote the cooperation and communication among the academics and practitioners interested in Eurasian business and economics. In this inaugural issue manuscripts were received for consideration from different countries such as India, United States, Turkey, Japan, Romania, and Kyrgyzstan. To ensure the quality of the Journal a blind review process was followed and six articles were chosen both on regional and international topics.

We would like to thank everyone supporting us to launch EJBE and publish this issue. Especially we thank to the members of editorial board, referees of the inaugural issue and the administration of International Ataturk Alatau University (IAAU), Kyrgyzstan. We also thank to authors sharing their knowledge with us by sending their manuscripts to EJBE.

We invite your manuscripts for the following issues, and look forward your continuing supports in reviewing processes and your suggestions to improve EJBE.
